

# Guide for beginners

Hello everyone! My name is Chad, CEO of ATM mania. In this guide I will be telling you a little bit about myself, how I got started in the ATM business and some basic information about owning your own ATM business! We see ATM machines everywhere and 90% of all those ATM machines are all privately owned by individuals just like you and me. A lot of people don't know much about the ATM business but they are a great source of passive income with minimal work, as well as being a super easy business to start with the right mentor. With this guide I hope to let you know a little bit about myself and give you more knowledge regarding how to start your own ATM business and how easy it can be!

I have been in the world of Money for over 15 years. I worked in Corporate America before discovering my passion for Passive Income (Passive Income is unearned income that requires minimal to no labor). I live in the tropical state of Florida and I am a father to a future CEO, and a family man before all else.

In 2021 I was blessed with having my first child, and having children can be very expensive and a lot of work. Thus I wanted to make extra money passively like anyone would so I could support my new and upcoming expenses while giving time and attention to my son! After doing a lot of research I found out that having my own ATM business was the best route to go. In 2022 I decided to learn the ATM business. I found what I thought was going to be a great mentor, sadly I wasted time and a lot of money in the process. It was very difficult for me not knowing anything about the space and I had spent a lot of time learning how everything works. Luckily for me, I found a new and awesome ATM Mentor. Shortly after I installed my first machine, I saw how it was doing and how profitable the business can be so I decided to buy another one, and after that even more. Now I am at 7 machines total with future commitments on the way which provide me with enough cash flow to pay for all my home expenses a month! It is such

an easy business with little to no work, only spending an average of 30 minutes a month.

My dream since becoming an adult has always been to make money, all while doing nothing. Unfortunately, I was told that just was not possible. So what did I do? I did what you're told to do. I went to college, got a degree, and joined Corporate America. I worked 8-10 hour days and drove 45 minutes a day to and from work. Doesn't sound enjoyable does it? I just knew there was more to life. Before I knew it, I discovered Passive Income. This was a dream come true. I now have found a way to live my dream. Get paid and do nothing!

I founded ATM Mania to help people begin their path to Financial Freedom. It is a long, hard, and costly journey to do if you do it alone, and most never achieve it. Now I want to help anyone interested in starting their own ATM business without all the hassle. With ATM Mania our goal is for you to have your own ATM business, hassle free. Myself, and our team will hold your hand and help you along the entire way. With our program we give you the equipment, knowledge, processing, locations, and so much more! I want to help you make easy passive money because when I did it alone, all I wished for was for someone to show me the way of doing things in this business.

## **How does the ATM business work?**

As the owner of an Automated Teller Machine (ATM), you earn money every time a customer uses your ATM to withdraw cash. A Surcharge fee is added to each withdrawal, and you collect this fee. You receive daily payments, consisting of the cash a customer has withdrawn, plus the surcharge fee, which is directly deposited into your business bank account.

Imagine yourself as a private money lender for the public, lending your own money to customers who repay you for letting them borrow cash. The borrowed amount, along with the Surcharge fee you charged, is then deposited back into your bank account.

This approach ensures that your money is actively working for you instead of just sitting in a savings account, and it's known as PASSIVE income. The beauty of it all is that the ATM takes care of the entire process, doing the work for you!

# Is it worth starting an ATM business?

## ATMs are very profitable businesses for the following reasons:

- No requirement for staff
- No necessity for a physical storefront or rental space
  - Low initial investment
  - Minimal to zero overhead costs

The only way you won't make money in this business is if you don't know how to pick good ATM locations. Before you start or team up with ATM Mania, it's important to learn about it. We're here to guide you once you're ready to get going!

## How much can I make from one ATM?

- Depending on the location, the standard ATM charges \$3-\$5 per withdrawal
- What type of business is the ATM machine in
- Foot traffic
- Surcharge fee
- Marketing
- The percent of the surcharge fee you are paying to the merchant

Typically, our Automation clients are earning around \$200 to \$1000 per month from the locations we've found for them.

We suggest either educating yourself or finding a mentor with experience, like us, to speed up your learning and secure high-volume locations.

# How much does it cost to start?

The cost will depend on your specific needs for your ATM business. We are a comprehensive solution for equipment and services, offering a one-stop shop experience. On average, our clients typically invest between \$2,000 and \$6,500 USD, depending on the chosen payment options. We tailor our packages to suit each client's requirements and provide the following:

- A brand new Genmega ATM machine
  - Wireless internet modem
  - Free processing services
  - Location finding services
  - 24/7 customer support
    - Program training
    - Sales training

# How do we find you an ATM location for your machine?

- Locate profitable sites in close proximity to the client's residence.
  - Negotiate on behalf of the client.
  - Present the negotiated contract terms to the client
- Allow the client to visit the location to ensure safety, meet the merchant, and confirm return on investment (ROI).
- Upon the client's satisfaction with the location, a verbal agreement or signed contract is obtained from the merchant.
- The client can then order their ATM through ATM Mania and prepare for programming and installation.
- If the client is dissatisfied with the location for a valid reason, we offer additional locations (Unlimited) at no cost until the client is content with their choice.
- Our team aims to find you a location within 3-6 weeks based on the city/state.

# Is financing available for the ATM program?

YES! We offer a great financing package for our ATM course where you get all the info you need as well as the equipment!

We are the sole ATM company in the industry providing this unique funding program that does not require a credit check!

## How do I get started?

To get started follow the link below to schedule a meeting with us through our website in the top right corner!
